

A201 - Reducing Greenhouse Gas Emissions - Motion to Divide

Moved by: The Most Rev. John Stevens

Seconded by: Stephanie Shepard

Be it resolved that this General Synod divide the resolution by removing the red text after the second "as possible", into a separate resolved clause.

Encourage dioceses and the members of the Anglican Church of Canada to reduce the emissions of greenhouse gases (GHG) from their diocesan owned buildings to zero as quickly as possible, and as safely and realistically as

Be it resolved that General Synod:

Acknowledge the challenges present in remote communities, especially the North, and encourage dioceses with historic wealth obtained via fossil fuels investments to share that wealth to support this transition.
